## Making a difference

**Thank you for becoming a Walking Star. Your participation and fundraising efforts will provide a valuable source of funding for the vital work of the Cancer Society.**

**The valuable funds you raise will help fund vital cancer research and care throughout New Zealand. The total funds raised are paid directly to the Cancer Society.**

### AUCKLAND CANCER SOCIETY RESEARCH CENTRE

Auckland Cancer Society Research Centre (ACSRC) is at the forefront of international cancer research. Thanks to the past generosity of New Zealanders, significant progress has been made in cancer research over the last 50 years. The Survival rate for many cancers has improved by up to 30% and today over 60% of cancer patients will survive more than five years.

But there is still much to do... right now, ACSRC scientists are making great progress towards finding improved cancer treatments. By developing the drugs in New Zealand we bring the hope of clinical trials to Kiwis sooner.

### THE CANCER SOCIETY

The valuable funds raised by you will help the Cancer Society to continue to provide core services throughout New Zealand.

1. The Cancer Society's Supportive Care programmes strive to reduce the impact of cancer by providing reliable information and compassionate support to people living with cancer, their whānau, family and friends. These services include:
2. Providing free telephone and internet support services, staffed by trained oncology nurses - the Cancer Information Helpline 0800 CANCER (226 237) For many the 0800 Cancer Helpline is the first point of contact and this enables the Society to reach all people who need Information, help and/or support providing practical information about coping with cancer.

The Health Promotion team work to create a future with less cancer for our children and grandchildren. We promote strategies that are proven to be effective for preventing cancers and are based on high quality evidence. We do this by working strategically with decision makers such as MPS and Council to create policy and legislation that will improve the health of our communities. We focus on the following key areas where certain cancers can be prevented:

3. Tobacco control
4. Skin cancer prevention
5. Physical activity and nutrition (including alcohol)

## Be Informed

People are more inclined to give a donation when they know how their money will be used. Explain that the funds you raise will help support research and provide free support services to people and families affected by cancer.

## Promotion hints

- Do your best to reach your fundraising target before the event, it will save you having to worry about collecting donations after the walk.
- Whatever your fundraising effort, remember to promote it as a benefit for the Cancer Society of New Zealand.
- Use your internal communications creatively. Put up posters. Write memos, send emails and announcements.
- Include a write-up in your company / club / family newsletter. Get on the agenda for meetings.
- Be enthusiastic about the event when talking about it.

Ticketed BBQ

Bake Sale

- Put up a goal board or thermometer at work / in your club / etc showing how much money you have raised.
- Aim high. Ask for \$100 and settle for \$50. Gear the amount you are asking to your audience.
- Let people know what you are contributing - dollars plus your time to train and take part in Walking Stars.
- If you belong to a service club, school group, church etc ask if you can have two minutes to ask for support.
- Arm yourself with a few facts about the Cancer Society (see the last section of this handbook.)

## Fundraising Planning Tips

**Congratulations** and thank you for being part of **Walking Stars**! You will be taking part in an amazing night-time walking half marathon to help raise vital funds for cancer research and support services.

After you have setup your supporter page on **Everydayhero**, you are ready to start fundraising! Make sure you personalise your page by updating your profile picture and story. Fundraisers that personalise their page receive on average 22% more donations! By planning your fundraising efforts, you will achieve your fundraising goal with ease. So let's get started with your personal plan:

1. Get the ball rolling and show your commitment by **donating to yourself!** Set the bar to encourage your donors to match your contribution. On average, fundraisers who make their own donation raise more than those who don't, and receive larger donations from their friends and family. Make as generous a donation as you can to demonstrate your commitment to the cause! If you are not in a position to donate to yourself, think of someone who you can ask to get you started.
2. **Ask for your first donation today.** Asking people for donations may seem difficult or uncomfortable but just remember that you are giving them an opportunity to make a positive difference in the community.
3. Make a plan and **list all of the people in your life who are potential donors** and organize them by the amount that you think they might be able to give. Don't leave anybody out as unfortunately, cancer affects everybody in some way. You may be surprised by who donates to you, by how much they give and it never hurts to ask.
4. Decide what will be the best way to **contact each potential donor.** The table attached gives suggestions about the best ways to communicate with different donor groups but always go with what you think would be most successful. When in doubt always lean towards the most personal method.
5. Make a plan for **when you are going to contact** each donor/group of donors and keep track of who has responded. Remember that people are busy! Just because they might not donate straight away does not mean they do not want or plan to. Set a date for when you are going to follow up with those who have not responded.
6. **Keep track of your fundraising progress** and let people know how much more you need to raise to reach your goal. Tracking and communicating this is made easy through your online fundraising page on Everydayhero. Once you have surpassed your fundraising goal, raise it! People are much more likely to keep donating if there is still a goal to be reached.
